INFRARED THERMO GATE

VIRUS SPREAD CONTROL

Infrared Thermo Gate is an intelligent accurate and convenient temperature measuring device. When a person stands in the Infrared Thermo Gate, the forehead is aligned with the temperature measuring point for 1 - 2 seconds, and the Infrared Thermo Gate will automatically sound and light alarm when the body temperature exceeds 37.3 °C. If the temperature is normal, the device will show the normal temperature. This product is easy to install, convenient for use, safe and reliable. The Infrared Thermo Gate adopts infrared non-contact temperature measurement to reduce the cross infection caused by contact temperature measurement and realize the accurate matching with the person and temperature, which is the first line of defense for prevention and control. This equipment can be used in schools, hospitals, enterprises, ports, passenger stations, exhibition halls, conference centers, major events, concerts and other crowded places.
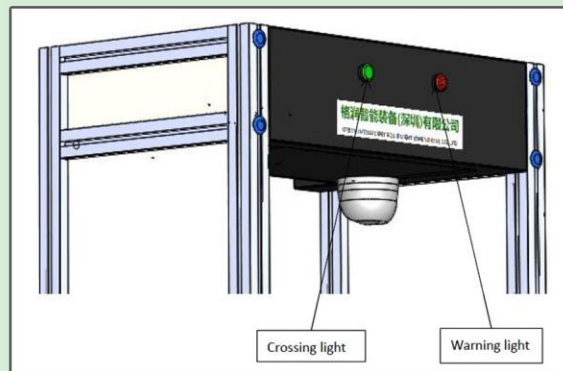

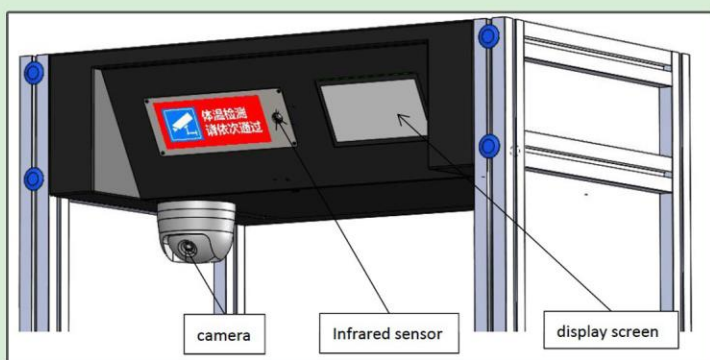

DIMENSIONS

Infrared Thermo Gate Dimensions	
Dimensions	2000 x 850 x 430 mm
Weight	About 70 Kg

Device Properties	
Capacity	>30 People (one by one)/minute
Thermometry Range	20-50 °C
Thermometry Alarm	Built-in horn, alarm triggered by high body temperature
Thermometry Accuracy	± 0.5 °C
Power Supply	AC 187 V - 242 V/ 47.5 - 52.5 HZ works without adjustment
Alarm Sound	>85 dB
Equipment Power	12 W
Display	Liquid Crystal Display (LCD)

DETAILS

camera   Infrared sensor   display screen

Crossing light   Warning light

Product Type	Infra Thermo Gate
Product Category	ITG Crowd Control
Version	0118052020
